

NVIDIA Developer Programs

Supporting the community that's changing the world

NVIDIA Developer Ecosystem

Driving adoption with developers

NVIDIA Developer Program

3.5 Million Developers

- 550+ SDKs
- Early access programs
- NVIDIA On-Demand videos
- DevZone / Forums
- Technical blogs

NVIDIA Inception

13,000 Startups

- Acceleration program
- Technical guidance
- Cloud credits
- NVIDIA tech discounts
- Training credits
- Go-to-market support

Deep Learning Institute (DLI)

350,000 Devs Trained

- Hands-on, self paced courses
- Live, instructor-led workshops
- Educator programs and teaching kits

Higher Education & Research Programs

600 Projects/ Year

- DevRel outreach

NVIDIA Developer Program

The Community that Builds

Program Benefits:

Tools

- 550+ exclusive SDKs and models
- GPU-optimized software, model scripts, and containerized apps
- Early access programs

Training

- Research papers, technical documentation, webinars, blogs, and news
- Technical training and certification opportunities
- 1,000s of technical sessions from industry events On-Demand

Community

- NVIDIA developer forums
- Exclusive meetups, hackathons, and events

Join the Community

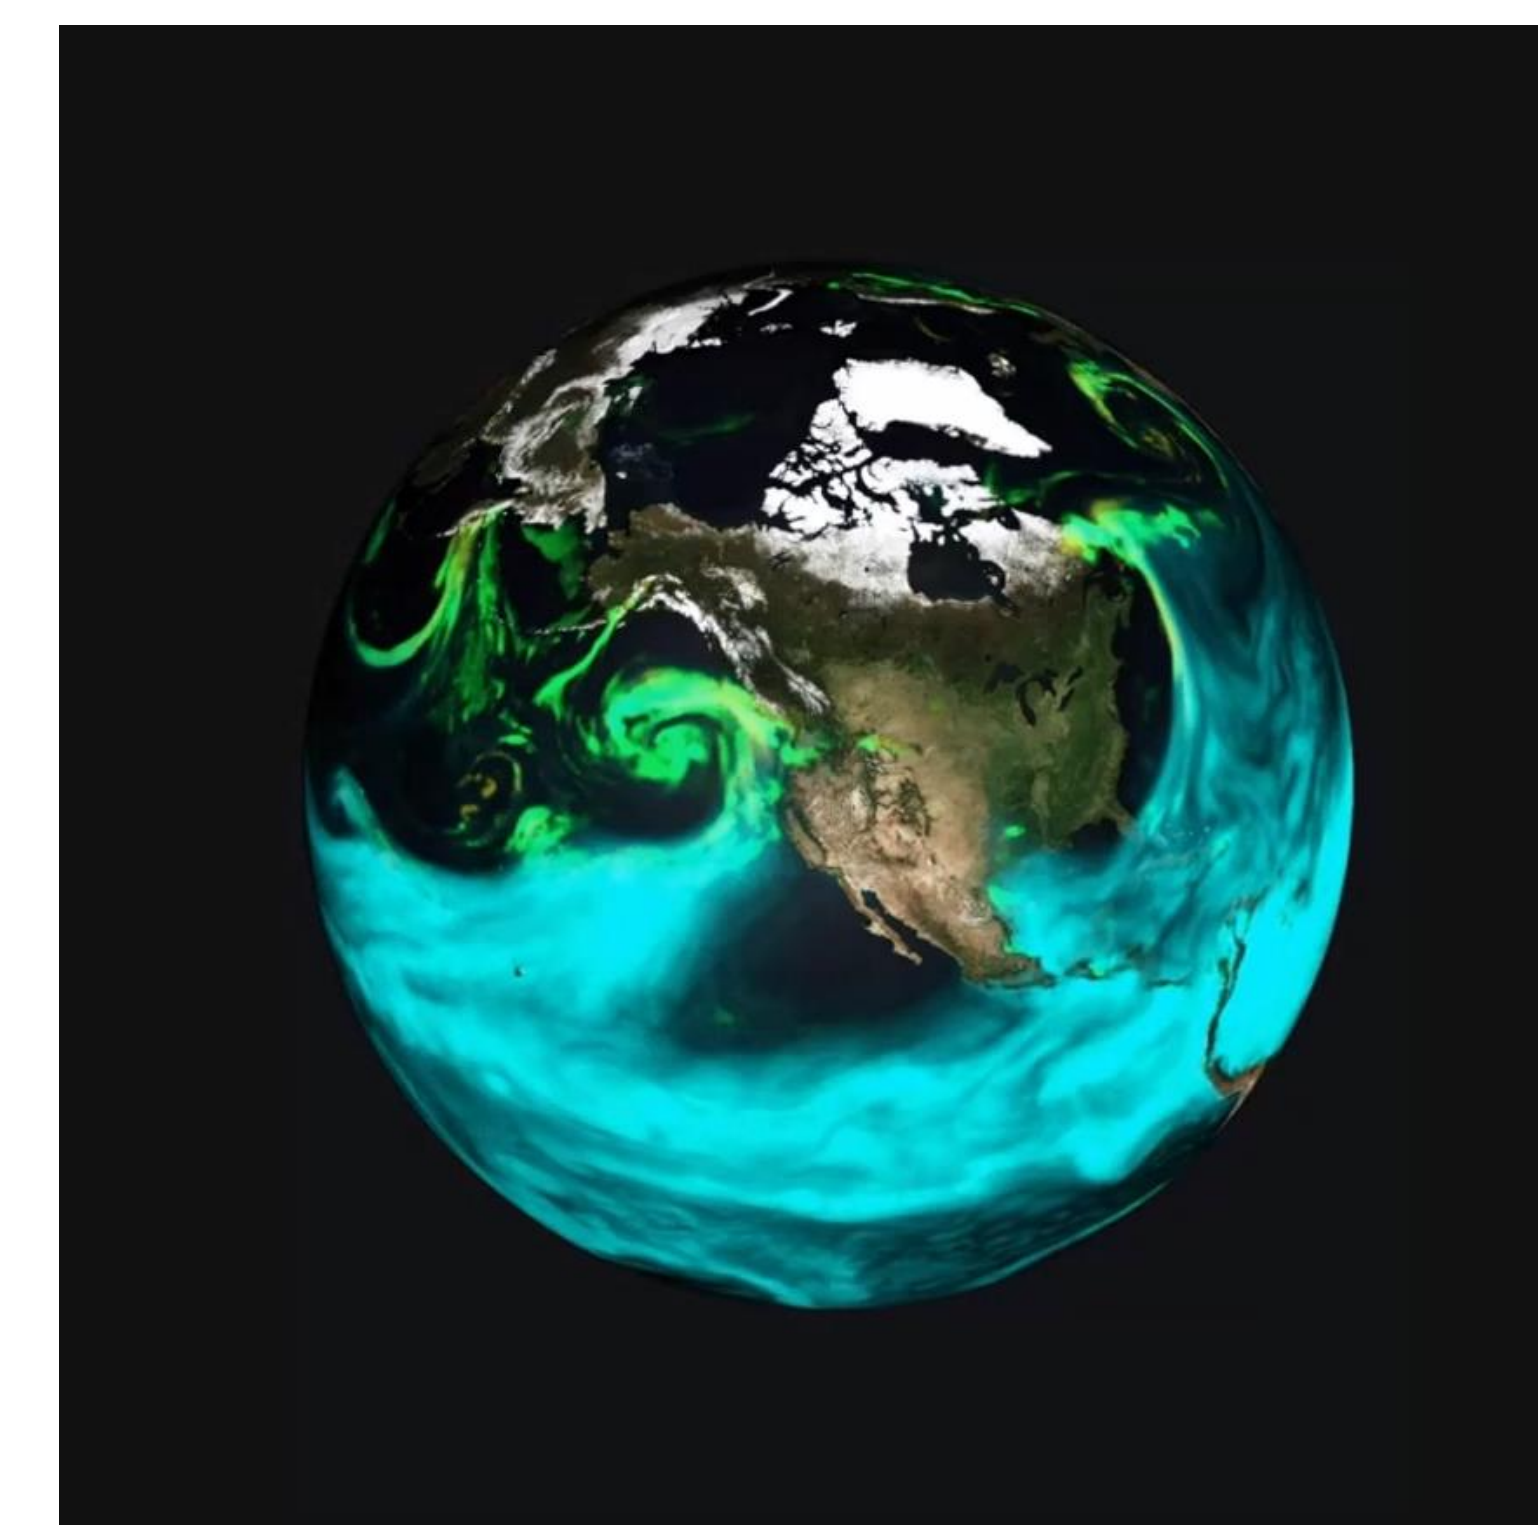

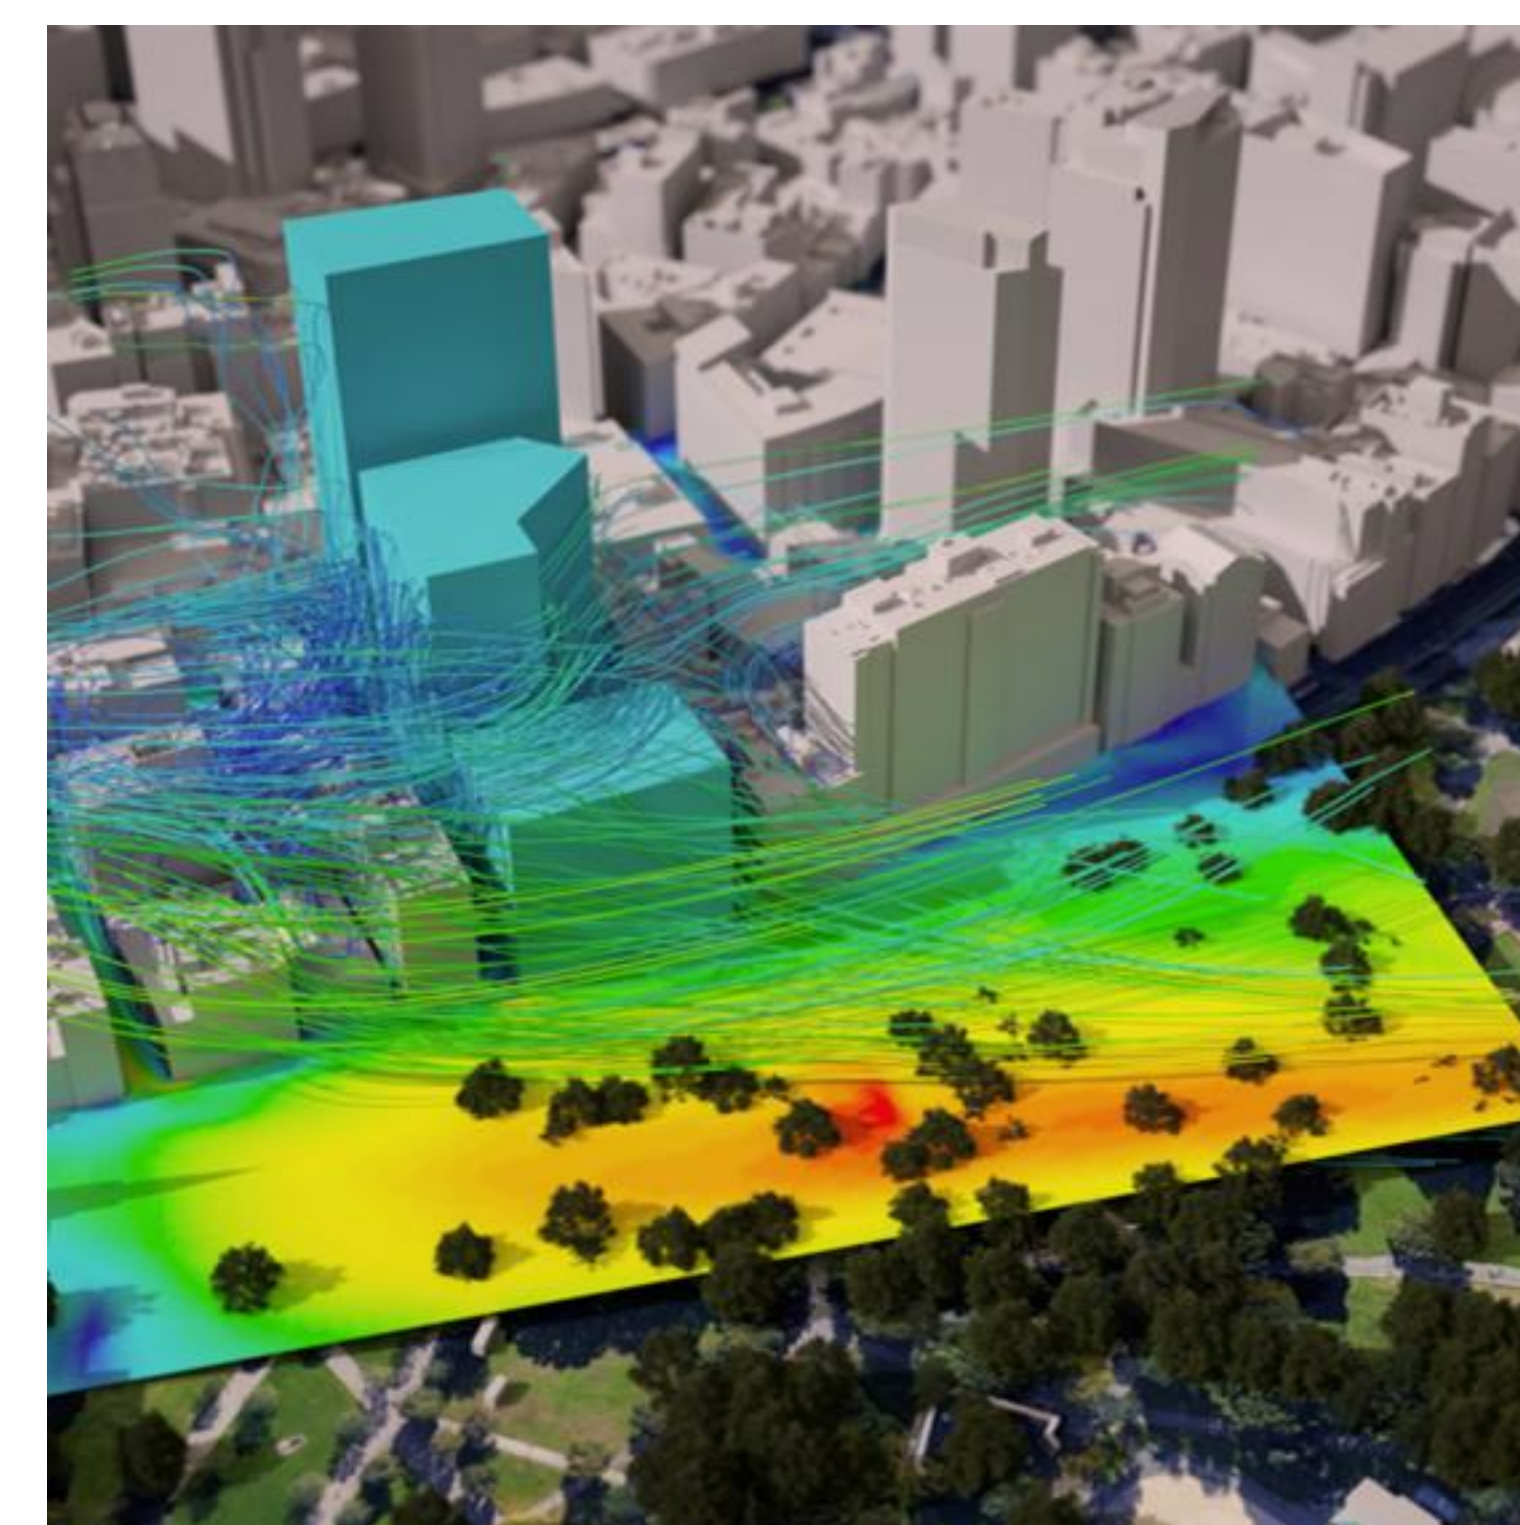

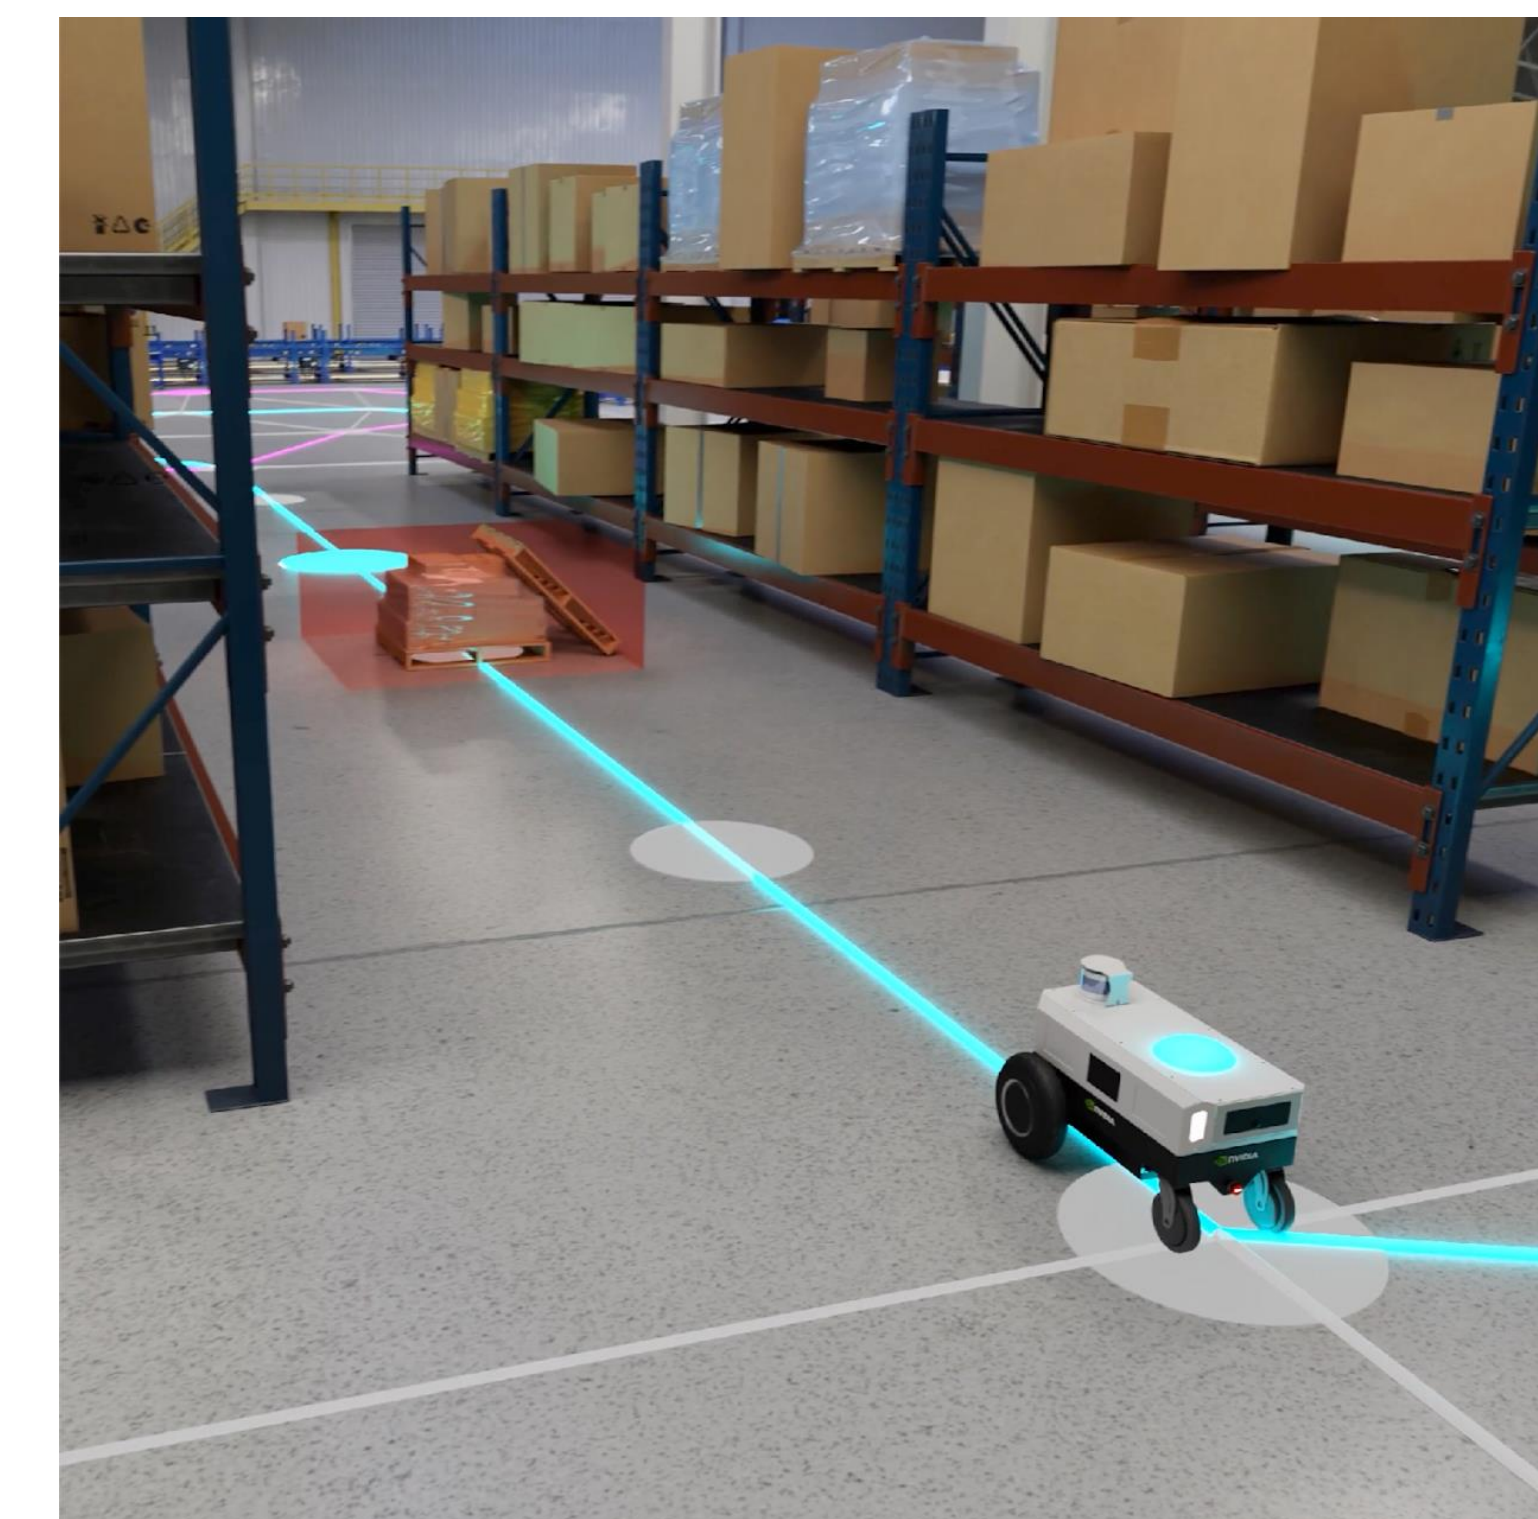

The Conference for the Era of AI and the Metaverse

NVIDIA GTC is where developers, researchers, students, creators, IT decision-makers, and business leaders gather to learn about the latest breakthroughs shaping our world.

We explore what's driving transformation in everything from collaborative virtual worlds and advanced graphics to data science, healthcare, and beyond.

Come experience GTC for groundbreaking content, expert-led sessions, and a must-see keynote to accelerate your life's work.

March 20-23 | <http://www.nvidia.com/gtc/>

Recommended Sessions to Attend

FEATURED TALKS

[Watch Party: 3D Synthetic Data: Simplifying and Accelerating the Training of Vision AI Models for Industrial Workflows \[WP51663\]](#)

Andrea Pilzer, Solutions Architect, NVIDIA

Gianni Rosa Gallina, R&D Technical Lead, Deltatre

Clemente Giorio, R&D Senior Software Engineer, Deltatre

Wednesday, Mar 22 | 2:00 PM - 3:30 PM CET

[March 20-23 | http://www.nvidia.com/gtc](http://www.nvidia.com/gtc)

[How to use Generative AI to Build Content for Real-World Applications \[S51486\]](#)

Wednesday, Mar 22 | 4:00 PM - 4:50 PM CET

[Introduction to Autonomous Vehicles \[S51168\]](#)

Monday, Mar 20 | 3:00 PM - 3:50 PM CET

[Jensen Huang's keynote](#)

Tuesday, Mar 21 | 4pm CET

WORKSHOPS & TRAININGS

[Introduction to "Learning Deep Learning"* \[DLIT52044\]](#)

[Building Portals from Your World to Omniverse* \[DLIT51145\]](#)
